

Thru: Dr. Wheelon
[redacted]
Visit of Ambassador Clark

25X1A

1. The Director's office mentioned last night that since he would be out of the building prior to noon, it would be best to set the meeting with Amb. Clark for 1215. Therefore, Amb. Clark will be brought up to the DCI's office at that time and you can join him there.

2. I have alerted [redacted] and OSP and also George Miller to stand by from 1300 on for a call from Tish whenever you return to your office with Amb. Clark.

25X1A

3. Attached is a brief biographic sketch on Amb. Clark.

4. FYI: The last time Clark was here he met with DD/P and [redacted] and George Miller talked to him about the [redacted] system in general and showed him the model. They pointed out its significance and that this would be the only central station. [redacted] showed some color slides of his trip to [redacted] and remarked that Clark showed a lot of interest.
